

A Fitting Investment

As junior golfers grow, so does the need to ensure they are properly fit to their equipment. The PING Prodi G “Get Golf Growing” Program is engineered with that in mind, offering a one-time, no-charge club adjustment service. Think of it as buying two sets for the cost of one.

Prodi G “Get Golf Growing” Program

- To be eligible, consumer must purchase a minimum of five Prodi G junior clubs (any combination) in one transaction. Purchases of fewer than five clubs are not eligible. Purchase will be verified via the set’s serial number to confirm eligibility.
- Consumer is entitled to a one-time, no-charge service to have the clubs re-shafted or lengthened, re-weighted, and re-gripped to optimize performance as the golfer grows. (Cost of re-finishing not included.) Clubs do not need to be altered at the same time. There is no expiration date for the one-time opportunity.
- Consumer is responsible for shipping costs to PING. PING covers shipping and handling costs back to the consumer upon completion of the alterations.
- Turnaround time is estimated at one week upon receipt of clubs at PING’s facility.

*Program applies only to PING Prodi G junior clubs. No other PING junior clubs are eligible.
